SEVENNE

Marbre universel mobile
Universal mobile bench

SVN05.3112

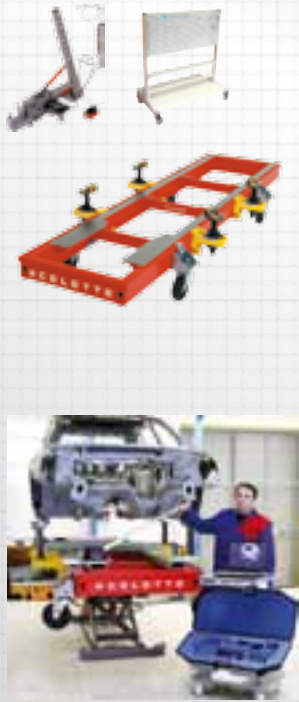

SEVENNE est un marbre universel mobile et évolutif (vers Griffon/Rhone). Le bridage peut s'effectuer tout autour du marbre car ce dernier possède une ceinture pour l'ancrage rapide des roues, des pinces, des supports multi-fonction et du timon de manoeuvre.

SEVENNE is a universal mobile bench, which can be upgraded to Griffon or Rhone. The anchoring may be achieved all around the bench, thanks to its peripheral frame for the quick fixing of wheels, clamps, multi use supports, and a steering handle.
